PROFILE SUMMARY

Motivated international Computer Science student specializing in Data Analytics, seeking an internship from July 28 to November 14, 2025. Skilled in programming, statistical analysis, and data visualization, with experience transforming data into actionable insights. Active in multiple organizations and competitions, demonstrating strong teamwork and leadership. Eager to apply analytical skills to real-world challenges while contributing to team success.

EDUCATION

Asia Pacific University of Technology and Innovation	Sep 2023 - Sep 2026
Bachelor of Computer Science with specialism in Data Analytics (cGPA: 3.92)	
De Montfort University	Sep 2023 - Sep 2026
Bachelor of Computer Science (dual-degree program)	
St. Peter Senior High School Pontianak	Jul 2020 - June 2023
Mathematics and Natural Science	

ORGANIZATIONAL EXPERIENCE

Staff of IT and Innovation Division, PPIDK Asiana	Oct 2024 - Present
- Led the development of a database-driven website for scholarship opportunities in the Asia-Oceania region, benefiting 100+ Indonesian students by simplifying scholarship searches. - Supported the development of the organization's official website, enhancing its functionality and user experience. - Operated virtual platforms for online events and webinars, ensuring smooth execution and engagement for hundreds of participants.	
Research Consultant, WorldQuant	Dec 2024 - Present
- Develop predictive financial models (alphas) to identify trading opportunities. - Optimize and backtest models using historical financial data for robustness.	
Maybank Global M'bassador 2025	Apr 2025 - Present
Selected for the prestigious Maybank Global M'bassador Programme, aimed at empowering students to upskill, lead, and collaborate on a global stage.	

PROJECTS

- Forex Market Analysis & Macroeconomic Impact:** Analyzed the impact of macroeconomic indicators (inflation, GDP, interest rates) on major currency pairs (EUR/USD, GBP/USD) using Python, Jupyter Notebook, and Power BI. Applied data analysis techniques to identify correlations and trends.
- Vouch AI - Prototype Website for Merchants | UM Hackathon | 5-Person Team Project:** Focused on the back end using JavaScript and developed an AI-powered chatbot for business recommendations, leveraging n8n, Supabase (PostgreSQL), and OpenAI API.
- Consumer Credit Risk Analysis:** Conducted data analysis on consumer credit risk classification using R Programming as part of the Programming for Data Analytics module, identifying key factors influencing creditworthiness.
- Mellodie Chatbot:** Created Mellodie, an AI-powered chatbot, to educate users about the mellophone instrument as part of the Artificial Intelligence module, leveraging natural language processing for interactive learning.

PROJECTS

- **Hospital Management System:** Built a C-based hospital management system as part of the C Programming module, streamlining patient records, appointments, and medical staff coordination.
- **Warehouse Management Software:** Developed a Java-based warehouse management system using Swing as part of the Object-Oriented Programming module, enabling efficient inventory tracking and management.

SKILLS

- | | | |
|----------------------|-------------------------------|--------------------------|
| • Java Programming | • C Programming | • SQL database and Query |
| • Python | • Object Oriented Programming | • R |
| • Data Visualization | • Microsoft Office Tools | • Machine Learning |

AWARDS AND CERTIFICATIONS

- **3rd Place - APU 2024 WorldQuant BRAIN Alphathon:** Making it to the one of the top contenders in a quantitative research competition, showcasing strong analytical and financial modeling skills.
- **Bronze Award - PPKOMP 2024:** Achieved Bronze in a national competitive programming contest, demonstrating problem-solving and algorithmic expertise.
- **Vice Chancellor's List (APU):** Recognized for outstanding academic excellence and having cumulative GPA of 3.9 in the first year of the study
- **Gold Level WorldQuant Challenge certificate**
- **PPIDK Asiana Training on Event Management certificate**
- **Datacamp Github Foundation Track certificate**
- **Udemy Business Analysis "A to Z" Masterclass certificate of completion**
- **GDSC Certified: Beginner in AI and Computer Vision certificate**
- **Intensive Bootcamp Data Analysis: Introduction to SQL certificate by Deloitte x MySkill**
- **Intensive Bootcamp Microsoft Excel: Basic Microsoft Excel certificate by Deloitte x MySkill**
